PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in software and application development, backend engineering, API development, testing, debugging, and application deployment. Experienced in building scalable applications using Python, JavaScript, React.js, Node.js, FastAPI, PostgreSQL, and MongoDB. Skilled in developing RESTful APIs, integrating third-party services, troubleshooting application issues, performing development testing, and implementing secure database-driven solutions. Strong foundation in software development lifecycle, Git/GitHub, CI/CD concepts, and production-oriented application support.

EXPERIENCE

Back-End Developer Intern — ERP Fees & Billing **Feb 2026 – Jun 2026**

PVG's College of Science & Commerce, Pune | FastAPI, PostgreSQL, React.js, Razorpay, JWT

- Developed and deployed a scalable fee and billing application using FastAPI and PostgreSQL, supporting installment payments, registration payments, refunds, and fee tracking for 100+ students.
- Developed and tested RESTful APIs and asynchronous webhook workflows for processing 100+ monthly transactions, implementing database idempotency to prevent duplicate payment processing.
- Debugged API, payment integration, and database issues; performed corrective actions and improved application reliability across end-to-end payment workflows.
- Integrated **Razorpay** payment APIs with HMAC-SHA256 signature verification and implemented JWT-based role-based access control for secure payment and fee-management operations.
- Supported application testing, troubleshooting, deployment, and integration with other ERP modules while maintaining reliable database transactions and error handling.

PROJECTS

TradeX – Real-Time Stock Trading & Portfolio Analytics Platform —MERN Stack

MongoDB, Express.js, React.js, Node.js, JWT, Chart.js

- Architected a responsive full-stack trading platform (React.js, Node.js, Express.js) with a modular public/dashboard layout, custom watchlists.
- Implemented interactive Chart.js visualizations (Doughnut & Vertical Bar) for portfolio allocation and holdings performance, backed by secure, JWT-authenticated session management.

Hotel Listing Web Application — MERN Stack (Link)

MongoDB, Express.js, React.js, Node.js, RESTful APIs

- Built and debugged a full-stack MVC application with authentication, dynamic property listings, reviews/ratings, interactive maps, and **20+** listings
- Integrated **Cloudinary** for cloud media management, improving image upload/delivery performance and reducing estimated average media load time by **25%**.

Real-Time Video Conferencing Web Application — MERN Stack (Link)

WebRTC, Socket.IO, STUN, React.js, Node.js, Express.js, MongoDB, Material-UI, RESTful APIs

- Built a peer-to-peer video conferencing application using **WebRTC** for real-time media streaming and **Socket.IO** for signaling, including SDP offer/answer and ICE candidate negotiation.
- Implemented audio/video controls, screen sharing, room-based messaging, and RESTful authentication services with MongoDB-backed user management.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, Java, SQL.
Frontend: React.js, Material UI.
Databases: PostgreSQL, MongoDB.
Backend: Node.js, Express.js, FastAPI, RESTful APIs, Webhooks, WebSockets, Socket.IO.
Security: Role-Based Access Control (RBAC), JWT.
Tools & DevOps: Git, GitHub, CI/CD, AWS (EC2, Lambda).
Testing & Support: API Testing, Development Testing, Debugging, Error Handling, Issue Resolution.

EDUCATION

M.Sc. Computer Application — Savitribai Phule Pune University | CGPA: 8.41 (A+) | Jun 2026
B.Sc. Computer Science — Savitribai Phule Pune University | CGPA: 8.83 (A+) | Apr 2024

CERTIFICATIONS

Data Structures & Algorithms (Java) — Aug 2024 Full Stack Web Development (MERN) — Mar 2025
